

CLASSIC newsletter – July 2019

Dear Friends – THANK YOU for supporting the trial!

Status

Since trial start **213 patients** have been randomised from 16 sites. Mean recruitment per week has increased to 7 patients.

-  ICU Solna, Sweden, has recruited their first patient. In total, 3 Swedish sites are active
-  In Norway, 3 sites are active
-  ICU Bern, Switzerland, has joined the trial
-  ICU Kolding, Hillerød and Aalborg have joined the trial

Future active sites

ICUs at Pilsen (Czech Republic), Barcelona (Spain) and Milan (Italy) are expected to start the trial during the summer. In autumn we are looking forward to welcoming Brussels (Belgium), Helsinki (Finland) and several sites in the UK.

Important information!

- The dataset for the first interim analysis (10%) has been sent to the Data Monitoring and Safety Committee. After their recommendations, we hope to share knowledge with you.
- 1-year follow-up: Please inform patients that you will contact them by phone after 1 year with two questionnaires about quality of life and cognitive function (10 min). Assure that you have a valid phone number. Each site is responsible for performing the 1-year follow-up for their own patients. You will receive more information from Maj-Brit Kjær (see below) about the follow-up as we get closer.
- A new protocol update (version 2.3) is soon available. We will send it directly to the primary investigators via e-mail and upload it on the website. Make sure to use the newest protocol version when available.
- Sub-studies on echocardiography and biomarkers in the CLASSIC trial will be conducted by the Swedish team. Contact: Maria Cronhjort, maria.cronhjort@sll.se

Meet the CLASSIC investigators

Summer is upon us! Throughout the summer season members of the CLASSIC team will support continuous screening of patients. Do not hesitate to call us (+45 3545 0606) if you have an eligible CLASSIC patient – we are happy to assist all trial related procedures!

The youngest part of the CLASSIC team on a mission in Copenhagen harbor

New team members

We are happy to announce that Maj-Brit Kjær, ICU nurse and CRIC coordinator, will analyse the 1-year follow-up of CLASSIC patients as part of her PhD thesis.

We also welcome Nick Meier, who is a medical student doing a research at ICU Rigshospitalet, Denmark. You will talk to Nick on the CLASSIC-hotline.

CLASSIC hotline

You can reach us at classic@cric.nu or CLASSIC hotline (available 24/7) +45 3545 0606. If no one answers the phone, please leave a message with your phone number (as you are likely calling from a hidden number) and we will call you back ASAP.

Please archive this newsletter in your Site Master File.

Kind regards

The CLASSIC team

Tine, Nick, Andreas, Carl, Peter, Morten and Anders
