COVID STEROID 2 newsletter – October 2020

Dear friends – thank you for your support for the COVID STEROID 2 trial!

Status

We have now randomised **23 patients** at **6 Danish sites** and **2 Indian sites**. Well done! Another **3 Danish sites** are screening. We are thrilled to see so many active sites in the trial already. Thanks to all of you for your hard work getting here. Most sites have now received ethical approval; only a few Indian sites and the Swiss site is still awaiting this.

Sites to join the upcoming months:

14 Indian sites

3 Danish sites

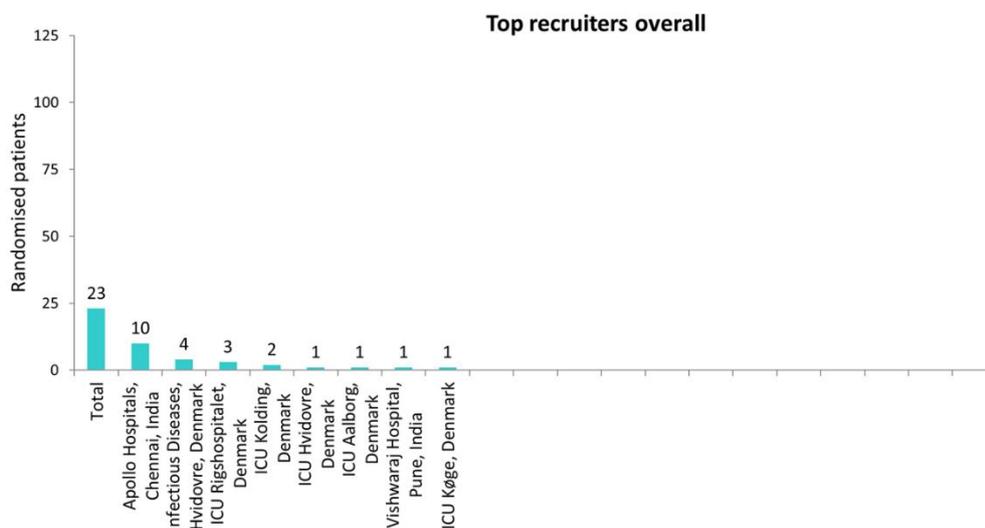

4 Swedish sites

1 Swiss site: ICU, University hospital of Bern (Inselspital)

Top recruiters

Congratulations to **Apollo Hospital in Chennai, India** for being top recruiter!

Important information

All trial-related documents can be found on our [website](#).

Remember to stay current with all updates in the online Trial Master File. All updates can be accessed through the [Trial Master File log](#).

Please note the [newest top-up procedure](#). Patients who have received up to 8 mg of IV dexamethasone phosphate or 8 mg of oral dexamethasone on the day of screening can now be randomised immediately. For these patients, use the [top-up procedure](#) for the first trial medication preparation.

To all Danish investigators: a [leaflet to clinical staff](#) and [guide to trial medication preparation](#) is now available in Danish.

We allow co-enrolment with other interventional trials unless the 2 trial protocols collide. You can find an updated co-enrolment list [here](#).

Contact

You can reach us at covid-steroid@cric.nu or +45 3545 7237 (available 24/7). Please archive this newsletter in your Site Master File.

Have a safe weekend everyone! Best,

Marie, Maj-Brit and Anders
